

The special adapter connection board FX2N-CNV-BD is mounted inside the main unit of an FX2N Series PC so that an insulating type special adaptor for the FX0N/FX2NC Series can be connected.

Mounting procedure (cut a power supply of the PC)

- ① Remove the panel cover of the main unit.
- ② Remove the resin cover provided on the left side of the main unit.

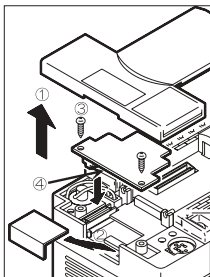

⚠ CAUTION ON MOUNTING

Pay rigid attention so that the PC Boards and the electronic components inside the PC are not damaged while removing the resin cover.

If such PC Bords and/or electronic components are damaged, the PLC may be damaged.

- ③ Mount the board to the connector in the basic unit, and fix it with screws M3 (0.14 inches) offered as accessories. Do not tighten screws exceeding the specified torque.
Tightening torque: 0.3 to 0.6 N·m

- ④ Connect the cable of a special adaptor for the FX0N/FX2NC Series to the connector provided on the left side.
